WORLD OF RADIO HITLIST update

Hi Glenn, My latest Hitlist update.
https://www.w4uvh.net/hitlist.htm
1) Updated UTC offset notations (due to change in DST) for: Cuba (R Havana Cuba, R Progreso, R Rebelde) and USA (R Martí, VOA, WRMI).
2) France: Update link to RFI frequencies to navigate to new B-25 schedule. (Thanks to Mike Cooper in WOR iog mail list).
3) Germany - Deutsche Welle: Updated link to navigate to frequencies to new B-25 schedule.
4) USA - WRMI: Updated links to WRMI Program & Frequency skeds to navigate to new B-25 schedule.
The next update is scheduled for December 2025. Best wishes and 73, Alan Roe

** ARGENTINA [non]. 15770, Mon Nov 3 at 1222, RAE ID in passing via WRMI: JBA. I`m checking for Dario in Italy to confirm Italian broadcast as on WRMI sked for 1200-1300 M-F on 15770, which he has trouble hearing. I think I heard a few words of Italian as opposed to Spanish, but at 1230 it switched to a gospel huxter in English, so RAE Italian is really a semihour? Linx to RAE on Hitlist blocked by 502 Bad Gateway, 505 Gateway Time-out (Glenn Hauser, OK, WOR)

** ARGENTINA. 28433 USB, Oct 31 at 2216, LU7EDI calling CQ 10/CQ DX in English, JBA. QRZ.com: ``LU7EDI Argentina flag Argentina, Rocio Fernández, CC 480, La Plata CP 1900, Argentina`` (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28505 USB, Oct 31 at 2219, VK2XZ, Rob. QRZ.com: ``VK2XZ Australia flag Australia, Rob VK2XZ / VJ2X, Southern Highlands, POB 891 Bowral NSW 2576, Australia --- Hello and welcome.

This amateur radio station is designed primarily for competition (Contesting) purposes. Mostly single OP along with the capability of multi-multi of upto three standalone operators, equipped with a full 4O3A pass band filtering network. Station has SO2R Run and Pounce at all times with the capability of MO2R per band at once when required. The stations antennae system can be simultaneously used on any band by two operators at the exact same time via a triplexer / combiner network. The station is located on a hill top with a 240 degree panoramic view, at an elevation of 650m (2200ft) above sea level and a clear take off in all directions to the horizon! Located in semi rural N.S.W half way between the cities of Sydney and Canberra; being the nations capital city of Australia. 40km inland from the Pacific coastline.`` (Glenn Hauser, OK, WOR)

** AZORES. 17946 USB, Nov 3 at 2143, Santa Maria mentioned, i.e. ATC here but not sure if ID or call from plane or ref by another of the many N Atlantic route airports as in Klingenfuß, besides San Francisco/Honolulu (Glenn Hauser, OK, WOR)

** BRAZIL [and non]. 28475 USB, Oct 31 at 2218, PU2KNM calling CQ DX, and so is HC4ES colliding. Obviously they can`t hear each other. QRZ.com: ``PU2KNM Brazil flag Brazil, CLAUDIO, RUA: PAULO NEDOPETALSKI 215 BAIRRO ALTO DA TENDA, APIAI, SP 18320000, Brazil`` -- His ``latest

QSOs`` all date from 2021y. And:

``HC4CS Ecuador flag Ecuador, ARMANDO CERVANTES, URB. VISTA PACIFICO, MANZANA B SOLAR 3 AYANGUE SANTA ELENA, AYANGUE SANTA ELENA, EC 240109, Ecuador`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28270+, Nov 3 at 2300, PY4MAB, GG####, beacon. WGB list: ``28270.5 PY4MAB - Poços de Caldas MG BRA GG68re - #0/1/3 (03 Nov 2025) Note: VVV ID + grid + BCN + 5" carr - Cobra 142 gtl mod. ant vert 10w`` Not many N American beacons now (Glenn Hauser, OK, WOR)

** BRAZIL. 28465 USB, Nov 3 at 2305, PY2DCX. QRZ.com: ``PY2DCX Brazil flag Brazil, Alcindo de Oliveira, Rua Ondina Aguiar Nunes,278, Bragança Paulista, SP 12922180, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28495 USB, Nov 3 at 2308, PU3KNM calling CQ DX in English. QRZ.com: ``PU2KNM Brazil flag Brazil, CLAUDIO, RUA:PAULO NEDOPETALSKI 215 BAIRRO ALTO DA TENDA, APIAI, SP 18320000
Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28500 USB, Nov 5 at 2310, PU3RDR calling CQ DX in English. QRZ.com: ``PU3RDR Brazil flag Brazil, Ruan Guilherme "Ruan" Da Rosa, Rua Adolfo Lutz, 50, Novo Hamburgo, RS 93540190, Brazil`` -- several other S American phones on 10m but hardly any N American beacons (Glenn Hauser, OK, WOR)

** CANADA. 353 MCW kHz, Nov 4 at 0722 UT, dash and PG, mixing with LI, LIttle Rock AR. PG is 25 watts at PortaGe la Prairie MB. #1 Canadian, YXL on 346 also in well (Glenn Hauser, oK, WOR)

** CANADA. 15034 USB, Nov 1 at 2237, Trenton Military still on daytime channel, giving its time as ``2135z``! and then conditions at Shannon as of 2230; go figure - literally (Glenn Hauser, OK, WOR)

** CHINA. 15125, Nov 5 at 0004, news in English, S6/S8. It`s CRI Beijing site for SE Asia, yet quite readable over here (Glenn Hauser, OK, WOR)

** CUBA. 4765, Nov 4 at 0259, R. Progreso not off the air (Glenn Hauser, OK, WOR)

** CUBA. 15140, Oct 30 at 1902, RHC Spanish announcement that it`s time for English; 1903 that it`s time for French, and indeed into French at wrong hour past 1910! No other frequencies on except S6/S7 of dead air on 15230. At 1936 recheck, 15230 is off and now 15140 is in Portuguese! Until chopoff mid-word at 1945* Somethings always wrong at RHC (Glenn Hauser, OK, WORLD OF RADIO 2319)

** CUBA. 11760, Oct 31 at 1551, RHC Spanish, S7 into FL FL SDR, no other frequencies (Glenn Hauser, OK, WOR)

** CUBA. 15140, Oct 31 at 1905, RHC succeeds in Englishing, S9 direct with squeal. Something`s not always wrong at RHC. No 11760 (Glenn Hauser, OK, WOR)

** CUBA. 15230, Nov 1 at 2238, RHC S9/+10 in suptorted Spanish, // 13780 not distorted. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 13780, Sun Nov 2 just as I tune in via Maryland remote this RHC cuts off air at 1557* not to return. 15230 is S7/S9 and suptorted but understandable. 15140 is S7/S9 marred by usual squeal. 11760 is best audible tho only S7. 1601 IS and frequencies for RHC on FM in western Cuba. 1602 start weekly Esperanto, why I am listening to confirm an hour later than in summer, as a Running Dog of Yankee Imperialism, Habana has now reset clox to EST instead of EDT, just

like in Little Havana. At 1925 recheck, only 11760 is still on, in Arabic, which a year ago per WRTH 2025 was scheduled Sundays only at 1900-1930 on 15140. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9710 S6/S9, 6000 S9/+5, 11760 S9+15/20, Nov 3 at 0249, all three RHCs broadcasting dead air! 9710 possibly JBM? 11760 with swirshing sound, and BION, the SSOB! Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 6000, Nov 3 at 0611, RHC dead air; and 11760 at 0615, JBA carrier. SAWA (GLenn Hauser, OK, WOR)

** CUBA. 15140, Nov 3 at 2000, RHC dead air direct when English should now be alive, following some other language before 2000, just the squealing. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, Nov 3 at 2145, RHC still on with dead air except for squeal, S9+10. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 5990, Nov 3 at 2315, CRI relay suptorted in English, S9+20. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710 S7 // 11760 with squeal, Nov 4 at 0256, RHC Spanish about US intervention in Latin America; while 6000 is not //, suptorted music, S9+20/25 presumed English service. SAWA (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11880, Nov 3 at 2148, S9/+10 open carrier. Nothing listed at this time in Aoki, EiBi or HFCC. Strength equivalent to Greenville 11860 & 11930. IIRC 11880 was once used for KBS relay a few hours later (Glenn Hauser, OK, WOR)

** CUBA. 11880, Nov 4 at 1939, Kriyol S5/S6, // 15140 equal, i.e. RHC on new, rather reactivated after years frequency. For B-15, WRTH 2016 had Creole at 1930 on 11670, but 11880 later, English to Africa at 2200. Surely also the 11880 open carrier I had yesterday at 2148 (Glenn Hauser, OK, WOR)

** CUBA. 13650, Nov 4 at 2255, open carrier, S7/S9 direct, no doubt warmup for pointless CRI music fill relay at 23-24; stronger than RHC itself 13780 at S6/S8. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR) see also FRANCE [and non]

** CUBA. 6000, Nov 5 at 0008, S9+20/25 of dead air or maybe JBM in English, or is it Spanish? Aoki & EiBi disagree about this hour of RHC, where something`s always wrong (Glenn Hausr, OK, WOR)

** CUBA. 11880 S9+10/20 direct of dead air or is it JBM? Like 15140 S9+20/25 with squeal, Nov 5 at 2048, RHC English from 2000 not to be heard, other possible frequencies not even on. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Nov 5 at 2316, RHC still on here in dead air with squeal, S9+30/40; and on 13780, S9+10/20 undermod Spanish, no other known frequencies. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380, 13820, 11930, 11860, Oct 30 at 1519, no Martíes yet direct, but by 1613, all four are on into FL SDR. Back to ``normal`` *1600. Will this become 1700 next week when both Cuba & USA quit DST? (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380 S8/S9, 13820 S9, 11930 S6/S7, 11860 S7/S8, Oct 31 at 1552, open carriers into FL FL SDR, warming up at Grimesland, 1600

they blast on with R. Martí in progress (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380, 13820, 11930, 11860, Nov 2 at 1945, NO signals from R. Martí, Grimesland, into Maryland SDR, taking this Sunday [only?] off. Something`s wrong at USAGM/OCB (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380, Nov 4 at 1731, R. Martí, JBA Spanish S3 into Ft Lauderdale SDR, instead of usual bigsig; 13820 & 11860 JBA carriers, 11930 no signal nor on alternate 15330. WWV reported at 1500, K index 2.00, ``Radio blackouts reaching the R1 level occurred and are expected.`` (Glenn Hauser, OK, WOR)

** CZECHIA [non]. See USA: WRMI

** CHILE. 28375 USB, Nov 1 at 2242, CE3PCU calling CQDX in English; hard to understand Uniform, and is it two or three? But there is no CE2PCU at QRZ.com: ``CE3PCU Chile flag Chile, Marco Antonio Saez Palma, foresta oriente 11940 c 8, santiago chile, Chile`` (Glenn Hauser, OK, WOR)

** ECUADOR. See BRAZIL [and non]

** FRANCE [and non]. 9790, Oct 30 at 0645, S6/S7 of dead air or JBM. I think it`s RFI way underneath Cuba relay of CRI not turned off after 0300-0500. Could not expect much signal from Issoudun beamed south during this hour. BTW, HFCC does not show any RHC, but does list CRI relays via ``HAB`` tnx to the ChiCom (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Oct 31 at 1539, S7/S9 into Maryland SDR, MiniTransAt, YL in French ranking racers; 1540 brief English introducing music and ``bonne journée à tous``, music fill.

Website has some illustrated stories of the competitors and FAQ: https://www.minitransat.fr/

``Quelle est la durée de la course? La durée totale de l’événement est d’environ 6 à 8 semaines, répartie comme suit :
Première étape : 8–10 jours de navigation
Escale aux Canaries : 20 jours
Deuxième étape : 15–20 jours de navigation
Les durées peuvent varier selon les conditions météorologiques et la catégorie du bateau (Série ou Proto).`` So 15–20 days after the restart Oct 26 would mean ending Nov 10–15 (Glenn Hauser, OK, WOR)

** FRANCE. 21660, Nov 3 at 1501, rock music from MiniTransAt, 1502 `Bonjour` and into marine weather for the racers, S3/S5 direct (Glenn Hauser, OK, WOR)

** ITALY. 1322.995+ kHz, Friday Oct 31 at 2030, IRRS via AM Italia, S8.6 into UTwente across Europe, not WORLD OF RADIO as I forgot to shift it one UT hour later already on my sked, but `Counterspin` in progress until 2054. This an excellent program from USA, yet appears nowhere on the IRRS schedule any day of the week; rather now, ``news and features from our studio``, which means we can`t depend on it, just another filler. https://fair.org/counterspin/
At 2100 into `Wavescan` as scheduled (Glenn Hauser, OK, WOR)

** KOREA SOUTH [non]. see U S A: WRMI

** MEXICO. 770, Nov 3 at 0607 UT, Spanish talk dominant, unusual, in the absence of KKOB. No UStations are SS, so probably XEACH, R Fórmula, Monterrey NL, 25/1 kW, news/talk format, per IRCA Mexican log. There are two other minor Mexicans and two minor Cubans listed (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 USB, Nov 5 at 2320, pirate music S9+. These say it`s WDOG: https://www.hfunderground.com/board/index.php/topic,153285.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 27225 USB, Nov 5 at 2301, artificial voice reading text, press or maybe WH press release about Trump`s threats against Nigeria. Lots of skip on CB but no QRM or fading on this channel so maybe nearby. Amounts to an unidentified pirate broadcast (Glenn Hauser, OK, WOR)

** OKLAHOMA. 265 MCW kHz, Oct 31 at 0648 UT, HET, 25-watt NDB at HEnrietTa OK, seldom audible despite proximity, while no signal on 255 from closer regular SW, StillWater OK, off? (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680 kHz, Nov 5 at 2020 UT, Virtual DJ Radio presumed, audible at ground zero in Enid but weaker than usual vs the noise level (Glenn Hauser, OK, WOR)

** PERU. 4775, Nov 5 at 0007, JBA talk, no doubt R. Tarma, which is never on when I tune late at night (Glenn Hauser, OK, WOR)

** POLAND [non]. see USA: WRMI

** ROMANIA. 6030, Nov 4 at 2302, algo JBA direct: no, not R. Martí nor CFVP but RRI as now scheduled in English to W Europe (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Nov 5 at 2300 still no signal from REE on N American B25 frequency, and the others are all way too weak direct: 12030, 17715, 17755. At 2320 I check 12030 into Kuwait SDR where it`s S9+20/25 -- but in Spanish! Not the token English hour once a week supposedly Wednesdays at 2300. Something`s nullified at Noblejas, or missing in Madrid (Glenn Hauser, OK, WOR)

** TURKEY. 5960.002+, Oct 31 at 2315, VOT not off the air, S9+20/30 into UTwente, the 6CI JBA so far (Glenn Hauser, OK, WOR)

** TURKEY. 9660.003+, Sun Nov 2 at 1746, VOT English, S9+10/20 into UTwente with `Letterbox`: ``from Canada, India, Malaysia and beyond``: 1) Miss Leila? Ball?, where? listens via UTwente. Wants QSL ``card`` by email, available? Yes {but they are images, not cards!} 2) Jayanta Chakroborty, New Delhi. Was not heearing 6165 and 7275 at 03 -- because B25 changed them! Second report from him says 7285 is not as good as 7275 was {this does not make sense: in A25, 7275 was aimed oppositely to N America, but in B25, 7285 is aimed at S Asia! Cemre never observes he doesn`t listen or report on the 6 MHz //, was 6165, now 6125 to NAm an hour later at 04}. 3) Mohammed Hassein??, Malaysia. 4) Siddartha Papajanji?, India. Is International Day for Eradication of Poverty, 17 October, observed in Turkey, and what is the poverty rate? Rate fluxuates, yes, it is. {What does ``observed`` mean? I bet if you surveyed 100 Turx on the street, especially poor ones, they would all ask, what??} 5) Allan Willie, Canada, sends another batch of 100! reception reports at once covering four? languages {fortunately, he does not ask for 100 QSLs...} 6) Mr Chris --?, Port Alberni [BC], Canada, listens via W3HFU remote in Maryland. 7) Jamahar Almeida, Goa. 1804 ending, 1805 theme (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960, Nov 3 at 2259, VOT IS & ID, S9+20 direct but about equal to noise level. At 2353 into UTwente, S9+30/35 with s/off as if it`s the 1330 on 13635; something`s always awry at Ankara. 2354 IS to 2354.7* so no extraneous German past 2400 but bound to happen later or sooner. Uncovers Chinese music which was not audible at all before Turkeyquit despite S9/+5 once in the clear; 0000 timesignal, theme and ID for PBS Xinjiang, Urumqi, East Turkistan,

standard denunciation (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960, Nov 4 at 2306, NO signal direct from VOT vs S9+10 high noise level. But also no signal into UTwente at 2345, rather pop music and soon Chinese announcement. I knew it could not be TRT since within 1 Hz of 5960.000! Nor on 9610, possible accidentalternate prolonged after 2130-2230 English. Something`s always erroneous at Emirler. 5960 is PBS Xinjiang in Urumqi, EAST TURKISTAN, land of imperialist ChiCom genocide against Uighurs and other Moslems (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.002, Nov 5 at 2258, S9+10/20 but JBA signal direct, assumed VOT not off the air to N America. At 2342 into UTwente, S9+30/40 songs, but really too close to .000 for VOT, so China? No, at 2359 still on air with VOT IS, and 2400 getting the new season off to a start, extraneous German opening, but chopped off at 2401.3* uncovering much weaker Chinese. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U A E. 9580.1, Nov 3 at 1510, JBA carrier off frequency; therefore, it`s UAE transmitter and  the only thing listed now in EiBi, IBRA Radio, Sweden in Pashto to Afghanistan at 1500-1545. Wonder if it`s longpath (Glenn Hauser, OK, WOR)

** U S A. 275 MCW kHz, Nov 4 at 0718 UT, JBA NDB, H#N? Must be HIN, 25 watts at Chadron/Whitney NE. See also unID 257 (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Nov 5 at 0726 UT, UI, 30-watt MDB at qUIncy IL, atop FBY, 25 watts at FairBurY NE. Normally I hear only FBY (GLenn Hauser, OK, WOR)

** U S A. 344 MCW kHz, Oct 31 at 0653 UT, JA, 400-watt NDB `Dinns`, JAxonvil FL; not to be confused with JL, at JopLin MO I`ve also heard on 344 but not now (Glenn Hauser, OK, WOR)

** U S A. 371 MCW kHz, Oct 31 at 0655 UT, JBA NDB seems RCV but not sure of every letter. Per RNA list it`s most likely one dit/dah different, RYV, `Rock River`, Watertown WI, 25 watts. New for me (Glenn Hauser, OK, WOR)

** U S A. 371 MCW kHz, Nov 1 at 0649 UT, NDB RYV, copied best when tuned to 369 USB. 25 watts from `Rock River`, Watertown Municipal, Watertown WI (Glenn Hauser, OK, WOR)

** U S A. 410 MCW kHz, Nov 1 at 0657 UT, NDB BA, copied best when tuned to 408 USB. 25 watts from `Clifs`, Columbus IN (Glenn Hauser, OK, WOR)

** U S A. 420 MCW kHz, Nov 1 at 0658 UT, NDB TU, copied best when tuned to 419 USB. 25 watts from `Veron`, TUpelo MS (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2318 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard’s listening Post, Radio: JRC NRD-535 HF, 1995, (30 years of service), Antenna: random long wires in the trees. WRMI, World of Radio (#2318):
9395 kHz, 2300, 2318, 2329 (45343), static QRN, October 26 UTC 2025 [Sun]
9455 kHz, empty slow start, 2330, 2345, 2359 (55433-4), 2358, October 26 UTC 2025 [Sun]
9395 kHz, Yes very weak, 0059, October 29 UTC 2025 [Wed]
9395 kHz, 2330, 2344, 2359, (45433), October 29 UTC 2025 [Wed]
(Lemke, Richard -AB)``

Confirmed UT Thursday October 30 at 0130 on WRMI 5010, S9+10/25 into Georgia SDR.

Also confirmed Thursday October 30 from 1730.5 on SW Gold Radio, Germany, 6160.001, S9+5/10 into UTwente but with heavy ACI from 6165 CGTN Radio in English from Beijing site; 3975.001+ clear S9+5/18; by 1757 faded to S8/9+5, and last minute or two totally blocked by carrier on 6160 from CRI ``German`` via Xian site, really nothing but Chinese fill music from 1800. For this reason, SWGR does not even try to run 6160 at 1800-2000.

WORLD OF RADIO 2319 contents: Afghanistan, *Alaska, (Ascension), (Brazil), (China), Colombia and non, Cuba and non, Denmark, Ethiopia and non, Europe, France, (Germany), Guam, *India, Indonesia, International Waters and non, *Japan and non, Korea North non, Kurdistan non, Laos, Mongolia, *New Zealand, North America, Romania, Spain, Taiwan and non, Turkey and non, *UK and non, USA, Zambia; publications; unID 9236; propagation outlook - (countries mentioned along with others not in order), *with B25 schedule.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2319 monitoring: confirmed Friday October 31 at 2155 the now 2130 on IRRS SW via AM Italia, S8.5 into UTwente across Europe. 1323

Also confirmed Friday October 31 at 2200 on WRMI 9955, S7/9+10 into Maryland SDR, immediately preceded by `Over the Horizon Radio`. From next week: WOR at 2300 UT.

Also confirmed Friday October 31 from 2331.8 on SW Gold Radio, Germany, 3975.002, S7/S9 into UTwente, running over but complete until 2401 November 1.

Also confirmed UT Saturday November 1 at 0300 on WTWW, 5085, S9/+20 into Maryland SDR. From next week: 0400

Also confirmed Saturday November 1 at 1530 on SW Gold Radio, Germany. 3975.002- S9+5 and 6160.001 S9+10/15 both into UTwente, latter with ACI from 6165 CRI Pashto via Urumqi.

Also confirmed Saturday November 1 at 1530 on WRMI 9955, S9+25 into Knoxville SDR. From next week this should be at 1630.

Also confirmed Saturday November 1 at 1700 on WRN North America stream, ex-1600 UT already, and confirmed still also via WRMI 9395 S9+10 and 7730 JBA into Knoxville SDR. Rough start at 1700 a few words opening `Encore`, pause and then WOR.

Also confirmed Saturday November 1 at 1830 on SW Gold Radio, Germany, 3975.002+, S8/9+5 into UTWente, while 6160 has been forced off the air by CRI occupying it with pointless fill music.

Also confirmed Saturday November 1 ending at 2004 UT on WA0RCR, 1860 AM, MO, JBA into N9AZZ IL remote, so started circa 1935. From next week: 2030v

Also confirmed Saturday November 1 at 2030 on WRN via WRMI 9395, fair into N9AZZ IL remote.

Also confirmed Saturday November 1 at 2100 on WRMI 9395, S9/+10 into Knoxville remote -- yes, twice in a row on 9395, but different sources, the first one out of WRN. From next week, 2200 instead of 2100.

Also confirmed Saturday November 1 at 2100 on WRN Europe stream.

Also confirmed Saturday November 1 at 2230 on WRMI 17790 AND 15770, both S9+20/30 but 17790 slightly better; and not on 5850 like last week, nor any other WRMI frequency. These are both on System H which carries Prague M-F. And on Sat preceded by Taiwán in Spanish.

Also confirmed UT Sunday November 2 at 0344 on WA0RCR, 1860 AM, MO, S9 into Carlock IL SDR, about 6 minutes into, so started circa 0338. From next week: 0415v

Next: {North American DST changes start here, not all WRMI changes yet confirmed:}
1930 UT Sunday SW Radio, Germany 3975;
2000 UT Sunday IRRS SW via AM Italia 1323;
2100 UT Sunday WRMI 15770 to NE;

2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2319 monitoring: Not confirmed Sunday November 2 at 1930 on SW Radio, Germany, 3975 as expected, rather pre-empted by Texas Radio Shortwave at 1900-2000, and something else next week. But WOR to resume at 2230 Sundays from Nov 16 at least for the rest of November on both 3975 & 6160. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2100 UT Sunday WRMI 15770 to NE;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
2030 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975 & 6160;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2319 monitoring: Confirmed Sunday November 2 at 2000 on IRRS SW via AM Italia, 1322.996- kHz, S7 into UTwente.

Also confirmed Sunday November 2 at 2100 on WRN Europe stream.

Also confirmed Sunday November 2 at 2100 on WRMI 15770, S8/9+5 into Maryland SDR.

Also confirmed Sunday November 2 at 2330 on WRMI 9455, S8/9+10 into Knoxville SDR.

Also confirmed UT Monday November 3 at 0000 on WRMI 9395, S9+10/20 into Knoxville SDR.

Also confirmed UT Monday November 3 at 0030 on WRMI 7780, S7/S9 into Brownsville SDR.

Also confirmed UT Monday November 3 at 0030 on WRMI 9455, S9+5/25 into Knoxville SDR.

``At 23.30 UT. 9455 WoR by GH strong WRMI Okeechobee FL outlet, at same time ‘Wavescan’ hobby progr sce on same level 9395 and 9955 kHz from same bc center.

00.00 UT WRMI WOR by GH on 9395 kHz, S=9+25dB fluttery signal. 9455 kHz at same time but much stronger TX in use S=9+40dB powerhouse of ‘Wavescan’ hobby sce.

00.38 UT WOR by GH also ON AIR tonight at Nov 3rd UTC both 7780 and 9455 kHz. [selected SDR options, span 12.5 kHz RBW 15.3 Hertz] (wolfgang büschel, df5sx, wwdxc BC-DX TopNews Nov 2 / 3)``

Also confirmed UT Monday November 3 from 0401 on Area 51 webcast only; while WBCQ 5130- started signing off at 0400. Preceding program `Lost Discs Radio Show` an oldie giving long-gone WBCQ frequencies as 7415 and 5110. Next:

2030 UT Monday SW Radio, Germany 3975 & 6160;

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975 & 6160;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. Times have changed for WORLD OF RADIO on one of our webcasting affiliates, SATzentrale Technikradio, Sunday 2130+, and Tuesday 1730+ UT: part of two hour blox at 21-23 and 17-19 UT, so could be up to an hour later than these times. It`s mostly in German, of course, so we appreciate very much being included in Englisch. See https://www.satzentrale.de/technikradio/sendeplan.shtml for full schedule and play button.

WORLD OF RADIO 2319 monitoring: ``17790 UNITED STATES WRMI at 2240. Confirmed: World of Radio broadcast. We tuned in late while in the truck. Good reception the whole time with NewTronics "Hustler" IS-100S-B roof mount whip antenna fed to RadioShack DX-402. Concluded on time - WoR no. 2319 and WRMI ID on the hour --- Good 11/1 [Sat] (Rick Barton, Sun City AZ)``

Confirmed Monday November 3 at 2051 the 2030 on SW Gold Radio, Germany, 3975.002-, S8/S9 into UTwente, also S9+5/20 into NW Ireland SDR; apparently 6160 not on, not heard at either or was there a trace? Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975 & 6160;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2319 monitoring: confirmed UT Tuesday November 4 at 0330 on WRMI 7780, S7/S9 into S Texas SDR.

Also confirmed Tuesday November 4 at 1411 the 1400 on WRMI 9955, S7/S9 direct.

Also confirmed Tuesday November 4 at 1518 the 1500 on WRMI 9955, JBA S5 direct.

** U S A [and non]. WORLD OF RADIO 2319 monitoring: confirmed Tuesday November 4 at 2100 on IRRS SW via AM Italia, 1322.996-, S7 into UTwente. Next:

0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975 & 6160;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;

1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2319 monitoring: confirmed UT Wednesday November 5 at 0030 on SW Gold Radio, Germany, 3975, 6/S8 into Sligo, Ireland SDR, but in audible at too-close UTwente.

Also confirmed UT Wednesday November 5 at 0130 on WRMI 9395, S9+10/20 into Knoxville SDR.

Also confirmed Wednesday November 5 at 2043 the 2030 on SW Gold Radio, Germany, 3975.002+, S7/S8 into UTwente and almost as good into Carlow, Ireland SDR. As for 6160, inaudible at UTwente altho something is there at -76 Hz; and at Carlow definitely something else, YL voice - could it be WBCQ R. Angela already barely into barely Europe? Offset fits. Romania might also be on 6160 until 2057.

Also confirmed Wednesday November 5 at 2100 on WBCQ 7490 -95 Hz = 7489.905 into NH SDR but may be slightly mis-calibrated. Gospel solo chopped abruptly at 2100 for ID, then WOR. It seems the preceding program never manages to wrap up cleanly by 2059.5. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

Thanks to James Gershman, K1JJJ, Warwick RI for a contribution via PayPal, in US funds but not necessarily, to woradio at yahoo.com -- and says, ``with continuing thanks for your ever-informative program``

One may also contribute by MO or check on a US bank to: Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 5920, Oct 30 at 0636, dead air except for some whine from TOMBS via WTWW, S9+15 direct. One can hardly expect a rational human-in-charge to be monitoring him every minute overnight for some kind of failure (Glenn Hauser, OK, WOR)

** U S A. 9930, Oct 31 at 1913, TOMBS air is dead on only S7/S9 direct WTWW and still at 1957 into Maryland SDR where it`s also only S9, so also underpowered? Something`s lifeless in Lebanon (Glenn Hauser, OK, WOR)

** U S A. 9930, Oct 31 at 2041, still deadair from WTWW. I notified George and he replied that it`s not a transmitter problem this time, but failure of the ``data line``, i.e. program feed from Bob Biermann, also affecting the other transmitter which might prevent WOR at 0300 UT Sat on 5085. Not clear to me why leave transmitter on with dead air for hours and hours; maybe hopeful feed will pop back on at any second. By next check 2329, TOMBS is back on 9930, moanin` & groanin` hour. At 0105 Nov 1, 5085 is also on, but modulation extremely distorted. He says that`s fixed by 0117 (Glenn Hauser, OK, WOR)

** U S A. 5085, Nov 4 at 0258, this WTWW is off again (Glenn Hauser, OK, WOR)

** U S A. 9930, Nov 4 at 1730, WTWW is off, no signal into Ft Lauderdale. Had been reliably on all day with TOMBS --- wait, it`s NOT off at 1759, JBA direct TOMBS, recovering. Propagation really disturbed:

``Space Weather Message Code: SUMX01
Serial Number: 197
Issue Time: 2025 Nov 04 1755 UTC

SUMMARY: X-ray Event exceeded X1
Begin Time: 2025 Nov 04 1725 UTC
Maximum Time: 2025 Nov 04 1734 UTC
End Time: 2025 Nov 04 1751 UTC
X-ray Class: X1.8
Location: N24E54
NOAA Scale: R3 - Strong

NOAA Space Weather Scale descriptions can be found at
www.swpc.noaa.gov/noaa-scales-explanation

Potential Impacts: Area of impact consists of large portions of the
sunlit side of Earth, strongest at the sub-solar point. Radio - Wide
area blackout of HF (high frequency) radio communication for about an
hour.`` (Glenn Hauser, OK, WOR)

** U S A. (7490), Nov 1 at 0000 UT, WBCQ stream, not even trying SW
this time, for `AAAWWW`; first interjexion in WTO theme is
``cookies``, and last one is ``60``?, segué to ``Monster Mash``. 0011
Jason is on phone, in charge of R. Angela, which will start at 0100 UT
Sat with a Hallowe`en show, thence 24/7 on 6160. He used to do a `Rock
Waves` show once a week, and will rerun archives of that on Friday
nights renamed ``High Voltage``. Most programming will be at *random*
times, only a few scheduled shows. Damian, a new hire, who runs a
store somewhere in Caribou, ``Mudroom Records`` will do a show by that
name? in about two weeks. Jason has picked out 1600! one-hour shows
from the BCQ archive to play. Would-be programmers may contact him,
Jason Hill, P O Box 344, Monticello ME 04760. Will avoid poltix &
religion, rather music and entertainment. And only on analog SW 6160,
NO streaming, tho welcome to listen via remote SDRs somewhere on the
east coast. 0037 Allan says now on 9330, 7490, 6160, 5130; but not
3265 because no one but him knows how to turn it on (and he`s in
Florida now); it has no remote control. Also on laser into space, and
gives nanometer wavelength, but I missed it! Assures us this is live
as of 10/31/25. 0038 into music. At 0050 I bring up 6160 -75 Hz =
6159.925, S7/S9 into NH SDR, a lot weaker than the others including
5130-. Hey, I`m too busy to listen for random programming! Need to
know when to hear what I may be interested in. The 6160 sked still
shows mostly Hal Turner, which has been canceled:
http://wbcq.com/schedule/index.php?fn=sked&freq=6160

At 0100, 6160 starts Radio Angela, with scary organ music. Harold in
spooky voice introduces HW sounds and stories. I haven`t tried to
listen since (Glenn Hauser, OK, WOR) see also USA: WOR November 5

** U S A. 9395, Sat Nov 1 at 1600, WRN relay via WRMI starting KBS
World Radio. WRN still has not put up a B25 schedule, and this is not
merely a one-hour-later shift as the A25 sked does not show KBS at
1500 Sat, rather DW. But at 1530 R. Prague was on, rather than 1430.
This is the sked you get for NAm, despite being labeled Africa & Asia
Pacific, but we thought the services had axually been merged:
https://www.encompass.tv/wp-content/uploads/2025/05/Encompass_WRN_English_For_North-
America_A25.pdf

Here is the page linking to skeds, surely eventually leading to B25s:
https://www.encompass.tv/solutions/radio/world-radio-network/network-schedules/
Whether or not WRMI be relaying parts of this is another matter (Glenn
Hauser, OK, WOR)

** U S A. 9955, Nov 3 at 2150, WRMI-3 is on with undermodulated rock
music, S9+20. Supposed to be in a break between 1700 and 2200. Maybe
this will audiblize another WOR broadcast Friday 2130 if not Saturday
2030, otherwise webcast only, but Sat has been fill music instead
(Glenn Hauser, OK, WOR)

** U S A. 17790, Nov 3 at 2258, WRMI, S9+20 of dead air, also 15770 S9+10 DA; and continuing past 2300. Something`s odd at Okeechobee. 2309 a few notes on 17790, then 2312 ``Stand By Me`` fill music;; and by 2319, 15770 is in `News from Poland`, i.e. WRN feed as was sked daily 22-23 in A-season (Glenn Hauser, OK, WOR)

** U S A. 5850 // much stronger 17790, WRMI in French, R. Prague relay; while 15770 is in English which would be Poland via WRN (Glenn Hauser, OK, WOR)

** U S A. 9955, Wed Nov 5 at 1148 as I happen to awaken, checking whether this WRMI be on the air yet? No. Prop OK as 9395 is audible. But by 1158 there is music, and 1200 right into R. Prague International relay in English, without ID or s/on. So also implies the 1130 Sunday broadcast of WOR would not be on SW 9955 either, tho differences possible on weekends. System B grid shows merely WRN from 1200 M-F. WRN A25 sked does not show Prague at 1100, rather NHK which would now have shifted a hour later, so revised B25 WRN sked very much needed. This page still leads to A25 info only, and you can`t just change A to B:
https://www.encompass.tv/solutions/radio/world-radio-network/network-schedules/
Prague was then scheduled daily at 0000, 0500, 0830, 1430 and M-F 1630 (Glenn Hauser, OK, WOR)

** U S A. 15150, Oct 30 at 1520, WMLK is still AWOL, nor heard on 17525 afternoons, 9275 evenings. Missing for at least two weeks, maybe four. Well, DEJOM certainly has said it all over and over, enough already. But is it transmitter trouble, or what? Website worx with ``live`` streaming, but nothing about SW problem; nor in their Facebook, nothing since April 2024 (Glenn Hauser, OK, WORLD OF RADIO 2319)

** U S A. 17525, Oct 31 at 1757, WMLK reactivated, DEJOM preaching, no hourtop ID break. Had been off for weeks; tnx tip from Rick Barton in AZ. Still at 1906 S9/+10 direct (Glenn Hauser, OK, WOR)

** U S A. 17525, Oct 31 at 2228, WMLK has DEJOM about to sign off with postal address, lofi audio with hum, S9+30 (Glenn Hauser, OK, WOR)

** U S A. 7505, Nov 4 at 0258, WRNO not off the air (Glenn Hauser, OK, WOR)

** U S A. 780, UT Mon Nov 3 at 0606 UT, WBBM starting `60 Minutes` audio only of CBS TV 5.5 hours earlier; might be convenient if you missed it on TV, but not this week as 2/3 of it dedicated to Drumpf after having successfully sued over how they edited Kamala; so is this totally unedited? I doubt it (Glenn Hauser, OK, WOR)

** URUGUAY. 28394 USB, Nov 3 at 2305, CX7RM calling CQ10, CQDX in English, QRZee? QRZ.com: ``CX7RM Uruguay flag Uruguay, Pablo Goldaracena Sommaruga, Pinares Calle Sagitario, Punta del Este 20005, Uruguay`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 257 MCW kHz, Nov 4 at 0717 UT, NDB JBA, seems like FLO, but no matches close enough listed; usually heard is JYR York NE (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 341 MCW kHz, Oct 31 at 0652 UT, two JBA NDB stations mixing. One very likely DNI, 25 watts at Sherman/DeNIson TX, almost in OK. The other used to be OIN, 25 watts at Oberlin KS, both of which would vie with JBA local EI, Enid, which has been OFF for a few years. All of these still appear at dxinfocentre.com/ndb.htm, but only DNI in the RNA list. It shows 5 others in conterminous USA still active and one far Canadian (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1550.3, Nov 1 at 0700 UT, again mystery off-frequency carrier hetting 1550.0 stations (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, Nov 3 at 0609, JBA carrier direct, even weaker than 4940. As noted previously in July and Sept: ``No broadcasters or utes listed now. WRTH 2016 had Pacífico R, Lima, and R. Apolo, São Paulo`` In case there be some overlooked broadcaster now rather than ute (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6860-6915, Nov 3 at 0613, multi-carrier, multi-tones beating against each other in this approximate wideband range, S9+20; next check at 0729, range has shifted to 6895-6950, again ~55 kHz wide. What is this? Similar to some other spans, notably around 17450 often in daytime (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236.00, Oct 30 at 0644, open carrier except for some JBA clix every three seconds. These mysterious carriers always ending in -6 have continued to be spotted but not re-logged for the record for months; not sure the clix are always there too, but noise level is low enough now to detect them, if not their bandwidth which had been far beyond the carrier where they were centred (Glenn Hauser, OK, WORLD OF RADIO 2319)

UNIDENTIFIED. 15846-15902 approx., Nov 4 at 1936, multi-carrier, multi-tones beating against each other, S9, again about 55 kHz wide, like yesterday at 0613 covering 6860-6915, 0729 at 6895-6950, and often around 17450. What are these? They could really QRM broadcasters but seem to avoid doing so, e.g. nothing much in 15 MHz span than SOH and ChiCom jamming (Glenn Hauser, OK, WOR)
